Disciplinary & Ban Guide

Disciplinary & Ban Guide

This guide outlines how staff should handle rule violations using a clear escalation system.

All punishments must be documented on the player's profile and in the designated staff log channel.

Infraction Classes

Class A – Standard Rule Violations (Escalating Punishments)

These are common RP/server rule breaks that increase in severity with repeated offenses.

Examples include (but are not limited to):

- RDM / VDM
 - Fail RP / Breaking character intentionally
 - LQRP / Overgaming
 - Powergaming / Forced RP
 - Metagaming
 - NVL / Fear RP violations
 - Combat logging / storing mid-scene
 - Breaking new life rule
 - Cop baiting / gang baiting / ninja looting
 - Green zone rule breaks
 - Poor OOC attitude / disrespect (non-targeted)
 - Failure to report exploits
-

Class B – Severe Violations (Immediate Permanent Ban)

These offenses are considered harmful to the community and result in an instant permanent ban (Senior Staff+ review required).

Includes:

- Racism, homophobia, hate speech, discrimination
- Doxxing or IRL harassment
- Hacking, exploiting, glitch abuse
- Chargebacks or payment fraud
- Threats toward server or staff

- Severe toxicity or targeted harassment
-

Class A Punishment Escalation

Use this structure for Class A offenses:

First Offense

➡ 2-day ban

Second Offense

➡ 7-day ban

Third Offense

➡ 14-day ban

Fourth Offense

➡ 30-day ban

Continued Offenses

➡ Permanent ban (Senior Staff+ review)

Multiple Violations in One Incident

If a player commits:

- More than one Class A violation in a single situation
 - ➡ Skip directly to at least a **7-day ban** (or higher depending on severity)

Senior Staff may increase punishment if behavior is extreme.

90-Day Clean Record Reset

If a player does not receive a banable offense for **90 days**, their disciplinary history resets.

- ✓ Previous offenses are cleared
- ✓ Escalation returns to first-offense level

Staff must:

- Remove old notes from the player's TX profile
 - Document the reset in staff logs
-

Ban Documentation Process

Every ban must include:

- ✓ Player Discord ID / identifier
- ✓ Evidence (clips, logs, screenshots)
- ✓ Staff member who issued the punishment
- ✓ Length of ban and **reason**

Where to log:

- Staff ban log channel
- Player profile notes (not character profile)

Always update:

- Offense number (1st, 2nd, etc.)
-

Permanent Ban Types

Standard Permanent Ban

Issued after repeated Class A violations and escalation.

➡ Appeal allowed after 30 days.

Unfit for Community Ban

Issued for extreme behavior or repeated severe issues.

- ➡ Requires Senior Staff+ & Management discussion
 - ➡ Appeal allowed after 90 days
-

Staff Discretion

Staff may:

- ✓ Increase punishment if situation is severe
- ✓ Escalate directly to Senior Staff when needed

Staff may NOT:

- ✗ Reduce punishments without approval
 - ✗ Ignore escalation rules
-
