

GUIDE

**SBRW SECURITY CENTER**

## How to add Exclusion for Need for speed World

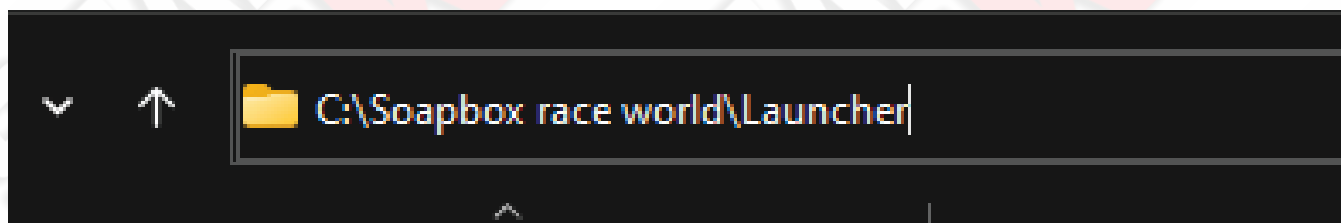

Before you go into the security center, there are few Steps to follow first, you need to make sure that both of your Antivirus and Firewall Are ACTIVE (not Disabled).

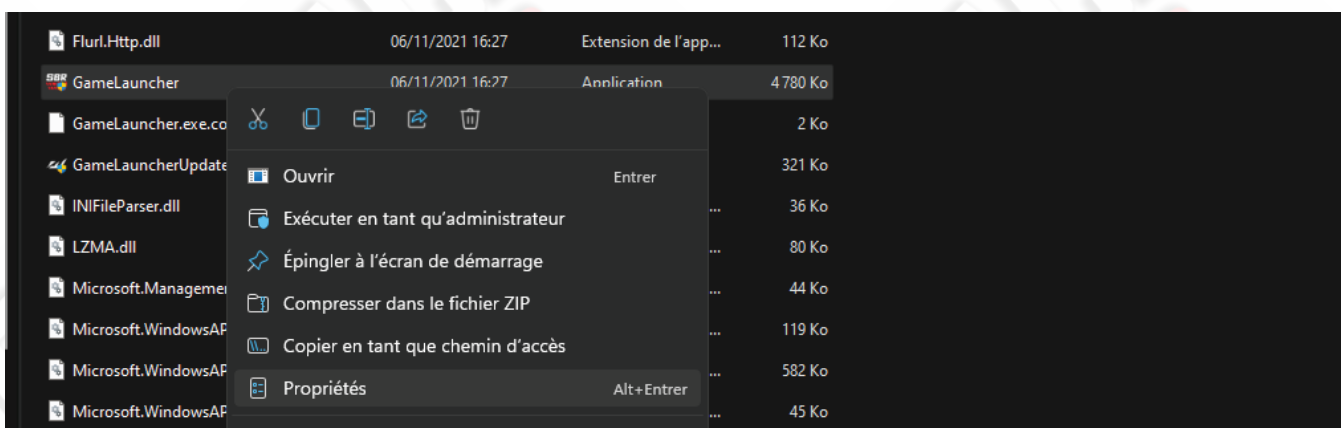

## Second step: ADMINISTRATOR PERMISSIONS:

You need to set Administrator Rights for Both of **Gamelauncher.exe / GameLauncherUpdater.exe / And Nfsw.exe**

In launcher Folder:

Find the Gamelauncher.exe process, Right click on it, and go to "proprieties"

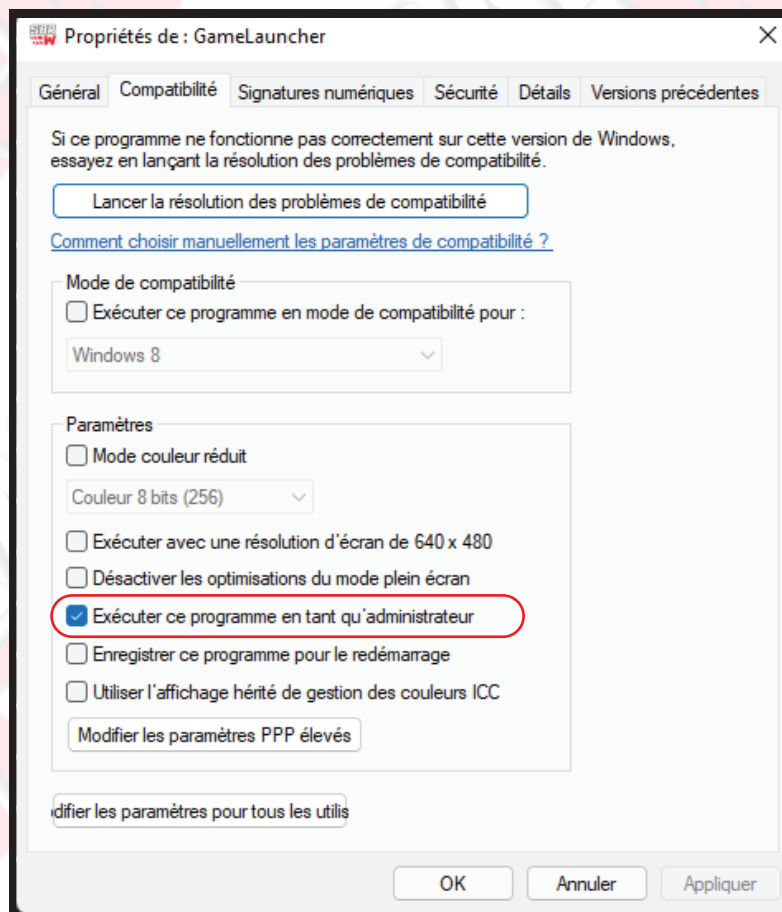

### Go to compability Tab:

Down, you will have to Check the option:

**Run As administrator**, if your Admin User do have a password you will be asked to enter it.

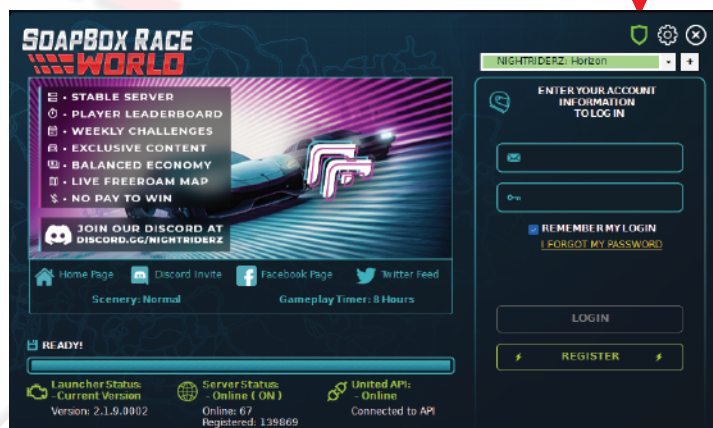

Hit save, and close that window.

Repeat the same thing for **GameLauncherUpdater.exe** localised in Launcher folder / **And Nfsw.exe** localised in your Gamefiles folder.

### SOAPBOXRACE WORLD SECURITY CENTER:

Now we can step up to the launcher, before you log in game, click on the Shield icone top right the launcher corner.

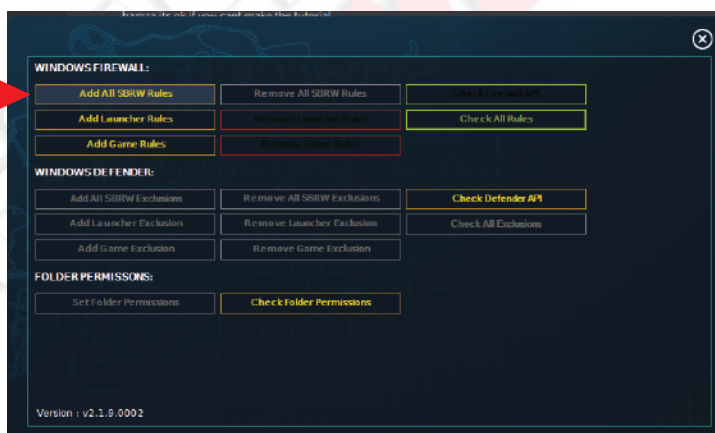

**Step 1:**  
Click on **Check Firewall API**

**Step 2:**  
Click on **Check All the rules**

**Step 3:**  
Click on **Add All SBRW rules**

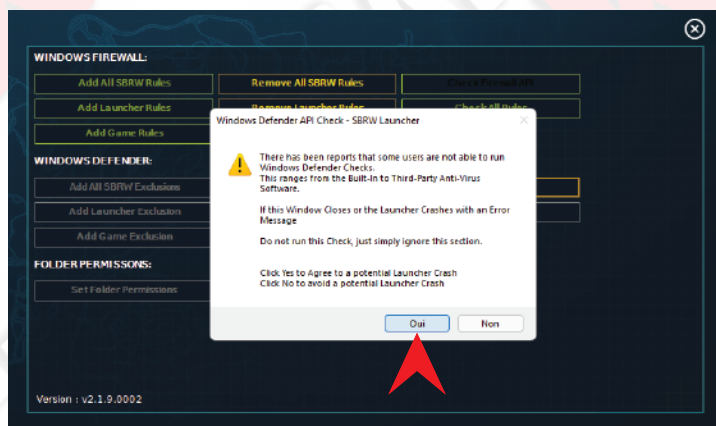

**Step 4:**  
Click on **Check Defender API**

### Step 5:

Confirm that you want to check by clicking on **Yes**

### Step 6:

Click on **Check All Exclusions**

### Step 7:

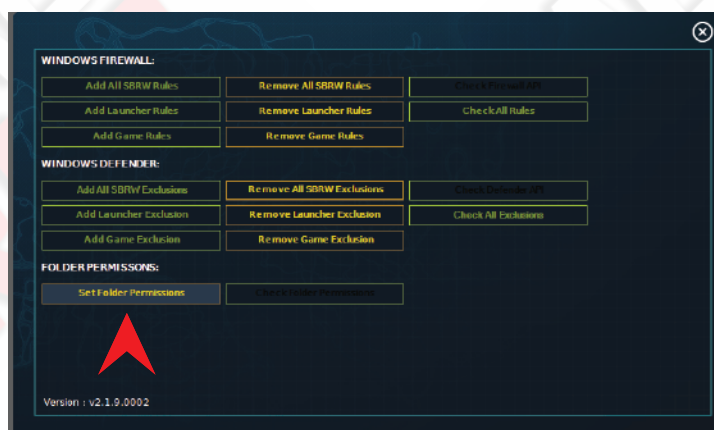

Click on **Add All SBRW rules**

**Step 8:**  
Click on **Check Folder Permissions**

**Step 8:**  
Click on **Set Folder Permissions**

At this point you should have a **GREEN SHIELD**, and you are ready to go.
