SUMMARY

I am a software engineer with expertise in frontend tech stacks and UI/UX design. Proven proficiency in crafting visually appealing and user-friendly web applications. Skilled in collaborating with cross-functional teams to deliver high-quality solutions within stringent timelines. A passion for blending design and development skills to produce seamless and innovative frontend solutions. Eager to contribute creativity and technical expertise to a dynamic frontend development team.

EXPERIENCE

Debo Engineering PLC

Frontend Developer | Nov,2021 - Jan,2024

- Developed project concepts and maintained an optimal workflow to ensure timely delivery of high-quality web and mobile applications, resulting in a 15% increase in project completion rate.
- Collaborated with the design team to create wireframes and prototypes for web and mobile applications using Adobe XD and Figma.

Debo Engineering PLC

Software Engineer | May,2023 - Aug,2024

- Utilized React to implement designs and create responsive, user-friendly web pages. Optimized web-page loading speed and boosted search engine optimization of website.
